

ELECTION CALLS OUT LARGE VOTE

LIVELY CONTESTS STAGED ON TUESDAY; WALLACE PROBABLY ELECTED; JOHNSON, SMITH, BROWN, HARDY HIGH FOR J. P.

"Great was the smell of the powder and great the crashing of guns." The primary election of 1922 has gone into history. The outstanding features of the election were the surprises it had in store for even the "wise ones" in the political world.

The great surprise in the state election is the nomination of Friend W. Richardson, who won over William D. Stephens, present governor of the state. Richardson made his campaign almost entirely through the medium of the smaller country and suburban newspapers, while the metropolitan dailies practically without exception supported Stephens. And Richardson won.

Final count the state over is still somewhat incomplete, but in San Mateo county the count has been completed and final figures can be given. These figures are, of course, not official, the official count being available only after the supervisors have made their tabulation of the ballots.

One of the surprises of the election was the great majority H. W. Lampkin won over his two rivals. Within a few days of election it became apparent that Lampkin would secure the nomination, but few, indeed, prophesied the lead he would have. This lead, while it does not yet give the election, would seem to practically assure his success at the general election in November.

In the contest over the assemblyman's office the incumbent, Frank L. Ekwand, won by a good majority, but his majority was not large enough to give him the election at the primary. The vote that one of his opponents, Chester Jones, showed was a surprise in some quarters, as it had been freely prophesied that Jones would poll a very small vote. Jerome Hallinan, second high man in the assembly contest, made an excellent showing considering that he came into the fight rather late and was opposed by a seasoned campaigner and politician like Ekwand.

One of the warmest contests in the county was waged in the first township where, with two to elect, there were eight candidates for justice of the peace. Here the four who received the highest vote will be the contestants at the November election. These are Judge Ellis C. Johnson (incumbent), Judge W. J. Smith (incumbent), J. L. Brown of Daly City and L. G. Hardy of South San Francisco. Up to the final count at Redwood City it looked as though Edward Farrell of this city had won over Mr. Hardy, but the figures in the final count gave Mr. Hardy ten votes in the lead.

In the contest for constable of the first township, with two to elect, there were four candidates. Of the four, James C. Wallace of this city polled by far the greatest vote, and Mr. Wallace states that he has been appointed by the office of the attorney-general of the state that he is now elected. According to advice received by The Enterprise by The Enterprise from County Clerk Elizabeth M. Nash, however, no candidate can be declared elected until the supervisors are ready to announce the official count.

It had been predicted that Senator Hiram Johnson would be given a good majority in this county over his opponent, C. C. Moore, and this prediction was borne out.

Here is the complete count for this county in the contests for senate, assemblyman, and sheriff, and the complete count for the township for justice of the peace and constable:

Senator	
Hiram Johnson	5176
C. C. Moore	3353
Assemblyman	
Frank Ekwand	3486
Jerome Hallinan	2190
Chester Jones	1916
Sheriff	
Frank Ekwand	3486
Jerome Hallinan	2190
Chester Jones	1916

TRUSTEES ASK FOR ELECTROLIER BIDS

J. Lombardi's License Revoked; C. Johnson Must Show Cause to Save His License.

That the starting of proceedings looking toward the installation of an electrolier street lighting system in this city will be no longer delayed, was the outcome of the further consideration of the matter at Monday evening's meeting by the city trustees. A protest against being included in the assessment district was introduced by several owners of property in the block between Maple and Spruce avenues on Grand avenue, but this protest was overruled by unanimous vote of the trustees and a resolution ordering the work passed. A notice inviting sealed proposals for the work will be found in another column of today's Enterprise.

The soft drink license of Julio Lombardi, proprietor of the restaurant at the Hotel Normand, was revoked following the questioning of Mr. Lombardi by the board members. A charge of not conducting the place according to rules laid down by city ordinance was brought against Lombardi recently by Night Watchman Henry McGraw.

The resolution endorsing the establishment in this city of a new bank, which was introduced at the meeting a week ago by Angelo Scampini and held over one week, was laid on the table. The board members felt that this was a matter which should not be acted upon by them.

A complaint from a resident on California avenue that a neighbor on Lux avenue was conducting a disorderly house was referred to the city marshal.

A written complaint was lodged by City Marshal C. C. Conrad against C. Johnson, proprietor of a restaurant at 90 Grand avenue, the communication alleging that the place was not conducted in an orderly manner. City Clerk McSweeney was instructed to notify Mr. Johnson to appear before the board at the next meeting and show cause why his license should not be revoked.

The request of John Asello that his soft drink license be transferred from the Shipyard restaurant to the Locatelli hotel at 305 San Bruno road was granted. The communication stated that Asello had taken over the management of the Locatelli hotel, which would be conducted under the firm name of Asello & Garbarino.

The application of Charles Menconi of 125 Aspen avenue for a soft drink license, which was referred to the city marshal at the last meeting, was granted.

On his request City Marshal C. C. Conrad was granted a two weeks' vacation.

The application of J. V. Roni for permission to conduct a dance at the Grand Hotel was granted.

Several bills against the city were audited and ordered paid.

NIGHT SCHOOL MEETING WITH EXCELLENT RESPONSE

The night school started at the local high school with the opening of the fall term is meeting with excellent response. Within a week of school opening the attendance has almost doubled, there being sixty-nine students in attendance at Monday evening's session this week. A class in commercial work was opened this week, thirteen students enrolling the first night. A full commercial course, including stenography, will be given if enough students apply for the instruction.

AGED WOMAN DIES AFTER AUTO ACCIDENT

Mrs. H. J. W. Stevens of Oakland Knocked Down Near Cemeteries.

Mrs. Helena J. W. Stevens, a widow, aged 72 years, who lived at 677 Lorinda avenue, Oakland, died at the South San Francisco Hospital Wednesday as the result of being run down on the highway near the cemeteries Saturday at noon. Following the accident, the injured woman was picked up by the driver of the car, whose name was not secured, and rushed to the local hospital, but never regained consciousness.

Mrs. Stevens at the time of being struck by the speeding car had just emerged from the Masonic Cemetery. She had been in the graveyard with relatives and friends, having just placed in graves there the bodies of her husband, daughter and granddaughter, which had been exhumed from the old Masonic Cemetery in San Francisco and brought here for reburial. As the aged woman was crossing the highway to the station on the other side where she intended to take a street car, she was knocked down and dragged for some distance by the machine. There was heavy traffic at that point when the accident happened and the driver did not see the woman on account of several machines ahead.

The driver of the death car immediately stopped and picked his victim up and started for the hospital. At the corner by Leipsic crossing one of the wheels of his machine broke off and the injured woman and the occupants of the car were thrown out. A passing machine picked Mrs. Stevens up and brought her to the hospital. The driver of the car which struck the woman was arrested and taken to Redwood City, charged with reckless driving. Later he was released under \$1000 bail.

A coroner's inquest over the cause of Mrs. Stevens' death will be held at the Neri undertaking parlors tomorrow (Friday) morning.

MISS JOSIE BOLLAZZI GIVEN BIRTHDAY PARTY

Miss Josie Bollazzi was given a birthday party last Thursday evening at her home on Railroad avenue. The evening was spent in playing games, dancing and singing. Those present were: Misses Rhoda Tibbitts, Norma Colombo, May Jennings, Elva Ferrari, Enes Tacchi, Lelia Bollazzi, Amelia Da Prato and Josie Bollazzi; Messrs. John Hanlon, John O'Connell, Marcel Thomas, Willie Hickey, James Dunn, Willie Wallace and Emilio Tacchi.

DEPUTY SHERIFF TOM ("BRICK") MCGOVERN QUILTS HIS JOB

Quite a bit of sensation was caused in official circles last week over the announcement that T. C. ("Brick") McGovern, deputy sheriff of San Mateo county, had resigned his position.

McGovern's resignation, which took place on Saturday last, is said to have been due to the fact that he could not obtain a leave of absence for that day, Sunday and Monday in order to assist Under Sheriff H. W. Lampkin in his campaign for sheriff.

LADIES' AID FOOD SALE.

The Ladies' Aid of St. Paul's Methodist Church will hold its regular monthly food sale at Carmody's store Saturday afternoon, September 2d. Mrs. H. Lintott and Mrs. Elizabeth Coffinberry will be in charge.

DR. FILBEN AT LOCAL CHURCH.

It has been announced that the Sunday morning services at St. Paul's Methodist Church will be conducted by Dr. Thomas Filben of San Bruno. The Rev. C. L. Peck will be in charge as usual in the evening.

Fred Kuhlman of Fresno, who spent a vacation here in June to see his father, William Kuhlman, for the first time in six years, has decided to enter the South San Francisco high school, and will therefore stay here until he finishes his course of study at the high school. Mr. Kuhlman Sr. is an employee of the Western Meat Company and has been a resident of this city for the last six years.

COUNTY VALUATION SHOWS LARGE GAIN

Increase in One Year Shown to Be Million and Half.

County Auditor J. J. Shields and his assistant, E. M. Stark, have just completed the figures showing the total assessed valuation of San Mateo county, including the operative property and railroads. The total valuation is \$40,657,082, as against \$39,064,733 in 1921, a gain of \$1,592,349 during the past twelve months.

The total valuation of real estate and personal property is given as \$37,170,660; that of operative property, \$1,698,722, and of railroads, \$1,787,700. The total valuation of cities is given as follows:

Eurlingame	\$3,065,545
Hillsborough	4,613,700
Redwood City	1,881,755
San Bruno	800,235
San Mateo	3,830,605
South San Francisco	1,874,210
Daly City	850,865
The valuation as given by road districts is as follows:	
First township	\$5,668,186
Second township	3,257,340
Third township	8,224,335
Fourth township	1,992,995
Fifth township	1,120,890

EXPRESSION OF APPRECIATION BY JUDGE LAMPKIN

I thank you, one and all. It is needless to say that I am truly grateful to the people of our county.

In view of the spirited campaign for all the candidates, I have received a tremendous vote. In view of this and the kindly consideration given me by the minority candidate and his friends at all times, I feel that my election in November is assured.

I am truly grateful that the campaign at all times has been dignified and free from personalities. I am grateful to my loyal friends all over the county, who worked in my behalf so valiantly and unselfishly. I am grateful to all the people for their kindly consideration and to my supporters for their votes and their assistance.

It has been my sincere ambition to establish in San Mateo county one of the best, most efficient and up-to-date sheriff's offices in the state of California, and I again thank the people of this great county for their support and assistance in giving me the opportunity to realize my ambition.

H. W. LAMPKIN.

L. J. HARDY THANKS VOTERS.

I wish to take this opportunity to thank the many friends who voted and worked for me in the campaign just closed. In view of the fact that there were eight candidates for the office of justice of the peace and that four of these came from South San Francisco, I consider it remarkable that I received the high vote that enables my name to appear on the November ballot. This is, of course, due entirely to the loyal support I received from the many friends who worked hard for me entirely without recompense. For such loyalty I am deeply grateful. If elected in November, I can assure all who have helped me that the office of justice of the peace will be so conducted that they will never have cause to regret the support they gave. I thank you all.

WALLACE THANKS VOTERS.

To the Voters of South San Francisco: Please accept my sincerest thanks for the confidence shown in me by the wonderful vote tendered me at Tuesday's election.

This, my fourth election to the position of constable of the first township, shows that the general public is in touch with the political situation and appreciates the efforts of its public servants.

I am happy to state that, in the opinion of the state's attorney-general, I have been elected at the primaries, having received a majority of all the votes cast, a total of 2175 votes.

Very truly yours,
JAMES C. WALLACE.

Mr. and Mrs. S. Gianella plan to leave tomorrow (Friday) for a two weeks' motor trip to Mount Ararat in Plumas county to inspect some mining property that Mr. Gianella has in that vicinity.

HIGHWAY AND BRIDGE PLANS DISCUSSED

Work of Securing Rights of Way to Be Taken Up; Funds for First Steps in Project Assured.

The work of acquiring rights of way for the eastside highway and the making of a definite survey for the highway and transbay bridge project will be started immediately by the highway district, according to a decision reached Monday in San Francisco. At a meeting there were present the official directors of the highway district, Supervisors John MacBain of this county and Richard Welch and J. Emmet Hayden of San Francisco, and the finance committee of the San Francisco board of supervisors, together with Franklin Swart, legal advisor for the district.

Mr. Swart created a sensation when he advised the meeting that under the law no tax for the project could be levied until the bridge was definitely located and rights of way for the highway secured. This was at first questioned by attorneys for the California Auto Association and other organizations, but a careful reading of the law convinced them that Swart was correct in his construction of the legal phases of the problem. The report of engineers employed by the Highway Commission favored the location of the bridge at Ravenswood Point, about one and a half miles north of Dumbarton Point.

City Engineer M. M. O'Shaughnessy of San Francisco informed the members of the board and committee that it would cost \$175,000 to acquire the rights of way and \$50,000 additional for the survey, making \$225,000 in all before any tax can be levied.

Supervisor McCleran, chairman of San Francisco's finances, at first was inclined to transfer funds from some other project for San Francisco's proportion of this amount, which is to be twenty times as much as San Mateo county will be called upon to provide, but finally agreed to obtain the money from the budget without increasing the tax rate for the coming years. San Francisco's proportion will be about \$214,286, while San Mateo county's proportion will be about \$10,714.

Supervisor John MacBain assured the meeting that this county would provide its share of the funds.

When the rights of way are obtained and the surveys completed, the plan of the Highway Commissioners, backed by the people of San Francisco and San Mateo counties, is to go to Sacramento and demand that the state stand 50 per cent of the bridge-building cost, the other 50 per cent being charged against an improvement district taking in those counties benefited by the improvement. The entire project, including a bridge and its approaches, will cost in the neighborhood of \$7,000,000 when entirely complete, but it is pointed out that this sum of money need not be raised in a lump sum, but be called for as permanent boulevard construction on both sides of the bridge is made. The bridge itself, if at Ravenswood Point, will cost about \$2,700,000. If at Dumbarton, the cost may be a trifle more.

SAN BRUNO MAKES PLANS FOR ADMISSION DAY CELEBRATION

A cordial invitation to attend and participate in the big Admission Day celebration scheduled for San Bruno has been sent every city and town in San Mateo county by the general committee working for the success of the day. The city of San Mateo has been invited to enter a float in the grand parade or to participate in any manner in which it may see fit, and the same bid includes all other municipalities within the county.

According to G. A. Helmore, publicity manager for the celebration, San Bruno will have at least six floats in line, and two prizes are to be up for competition in this event. A prominent speaker, probably a justice of the supreme court, will deliver the oration of the day, and in the afternoon sports and games will take place for which valuable prizes will be given. The main sport event will be a five-mile cross country race. There will be a grand ball in California Hall at night with excellent music for dancing.

HOME TRADING CAMPAIGN IS STARTED

ASSOCIATION MEMBERS WILL GIVE COUPONS WITH SALES; PRIZES GIVEN EVERY TWO WEEKS AND AT CHRISTMAS.

Tomorrow (Friday), September 1st, sees the start of the big prize-giving campaign that is to be instituted by the members of the South San Francisco Merchants' Association. When you make your purchases of the merchants who are members, they will give you a coupon that will have the amount of your purchase printed upon it. Save these coupons and convert them into certificates of the denomination of \$10. The \$10 certificates will be numbered, and every two weeks the Merchants' Association will give away a valuable prize to the person holding a certain number. The certificate will be chosen from a sealed box where numbered stubs from the coupons will be deposited by the merchants each week. These prizes will be merchandise orders worth \$10 that can be redeemed at the stores of association members.

But these semi-weekly prizes are not the only prizes the merchants propose to give away to encourage trading in local stores, not by a long way. The campaign is planned to last till Christmas time, and just before Christmas a dazzling array of big prizes will be awarded to those having the greatest number of \$10 certificates. The tentative plans of the Merchants' Association are to have these prizes reach a value of several hundreds of dollars, viz: First prize, \$300; second prize, \$175; third prize, \$100; fourth prize, \$50; fifth prize, \$25. Remember these big prizes go to those who have collected the greatest number of \$10 certificates between now and Christmas.

The whole campaign is designed to encourage people living in South San Francisco or its vicinity to spend their money with their home stores. There will be no increase in prices to cover the cost of the prizes; this cost, according to carefully worked out plans, is to be met from the funds of the Merchants' Association and from the increased business that the campaign is sure to bring to the members of the organization. From week to week the progress of the campaign, the names of prize winners, etc., will be set forth in The Enterprise, and week by week it will make interesting reading.

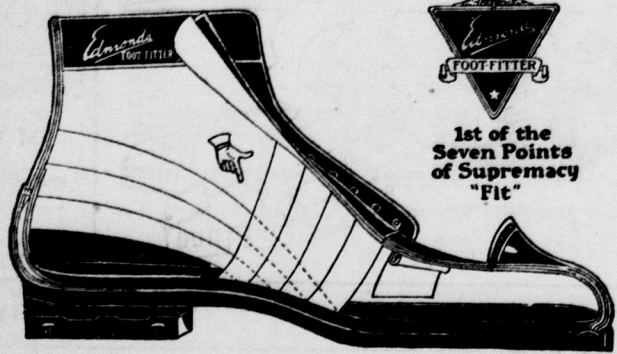

The first prize will be given Saturday, September 9th. Who will the lucky winner be? Begin saving your coupons with the first purchase you make tomorrow. As soon as you get \$10, exchange the coupons for one \$10 certificate. The merchant will tear off the numbered stub of this certificate and it will be put in a locked box. Your number may be the lucky one, who knows? At any rate, it will pay you to save the coupons.

COUNTY SURVEYOR KNEESE GETS RETURNS VIA RADIO

County Surveyor George A. Kneese of this city staged an innovation at the courthouse in Redwood City Tuesday evening, when he made it possible for those gathered there to hear state election returns by radio. Mr. Kneese set up in the rotunda of the courthouse the powerful radio apparatus which he has maintained here for many months. Election returns, broadcasted from the San Francisco Examiner office, were clearly heard over Mr. Kneese's radio, much to the entertainment of a large crowd which gathered at the courthouse.

TWO GRASS FIRES CALL OUT FIRE DEPARTMENT

Two grass fires have called out the fire department this week. There was no damage in either blaze. Monday afternoon the grass in the lot at the corner of Linden and Miller avenues by the storehouse of the Pacific Gas and Electric Company caught fire. Thursday morning the fire was in the yard of All Souls' Church.

"Foot-Fitters" Support the Feet Like a Doctor's Bandage

Edmonds "Foot-Fitter" Shoes are called "Foot-Fitters" because they actually support the feet like a doctor's bandage. You enjoy a restful feeling the moment your feet slide into a pair of these well fitting shoes.

"Foot-Fitters" are built on combination lasts and patterns which are certified by America's foremost last makers. They are higher and narrower at the arch, and when laced hold the feet in a comfortable and natural position.

Perfect fit, with long shoe-life comfort, is but one of the seven points of supremacy which make these shoes an unusually good dollar value buy. This is not an idle boast as we can quickly show you. Come in and let us prove that "Foot-Fitters" are the best shoes you can buy regardless of price.

OLDSMOBILE POWER

It is gratifying to a motorist to know that his car has power and plenty of it.

And that is one of the most notable features of the performance of the Oldsmobile Four—its proven power.

But it is a good car to own for many other reasons—its beauty of line and smart appearance; its speed, when needed; its known economy and its absolute reliability.

You can't make a mistake when you invest in an Oldsmobile!

Window Display and Advertising

By JOE OSIER

Although I understand perfectly that it is much easier to tell men of the industry how to conduct their business and succeed—

Than to make a success of my own affairs.

I take my typewriter in hand for the purpose of informing the readers of this publication what I would do to—

Win a wad—

Were I figuring overhead and worrying about the weekly payroll.

First—I would put my name and business before the buying public and—

I'd keep it there.

To do this, I would decide on a medium of general circulation and buy white space, the same as I would wiring devices, household appliances or anything that I carried in stock. And, every time I got a chance, I'd break into print, in the news section.

Second—I would establish a reputation for high-class workmanship and maintain it. I'd advertise speed and service and I would give my customers—

Speed and service—

Or resurrect my sack of tools and get back on the job.

Third—I would brighten up, clean up and dress up my shop—make my windows salesmen—the kind that sell—the kind that cannot be kicked from the front porch or rushed through an office door—

Leading to the street.

I would do all this and more, because I have found that the men in the selling end of the electrical game who—

Carry the idea under a dented derby that window displays and expensive advertising do not pay are the fellows who bear blisters on their fingers ringing up—

No sale.

They are the men who are always short on Saturday night and who invariably will be found among—

The other bidders were:

Every banker in town knows them—having turned them down on numerous occasions.

By the same token, they are also unfavorably known by every jobber and manufacturer and—

At booster meetings, they are as welcome as a—

Bible tract in a bread line.

For a fact, I have seen electrical shops which reminded me of the home of ol' Tom Morgan—

Or some other town drunkard and—

Without exception, the owner of this ark blatantly told everybody—

Including the world, that—

Any man who let go of real money for advertising and bothered with a window display—

Is a Simple Simon, a witless wight and a candidate for the—

Foolish foundry.

Then, after getting these smart cracks off his chest, this Wisenheimer would stumble over a mess of stock that will never be turned over, finally falling into a dark, evil-smelling office, where he spent the rest of the day peering and pawing over a greasy set of books, trying to figure out why—

In the name of Moses and the beards of the prophets, he couldn't get into the—

Income tax paying class.

Today, the buying public must be catered to. And the business man who is looking ahead will deliberately set out to appeal to prospective purchasers. He knows they want class and he intends to give them class and—

Bill 'em for it.

The business world is moving. Snap into line.—Journal of Electricity.

"Fertilizer! Fertilizer! You'll come here, you Fertilizer," called the tiller of a rocky ten acres.

"Why for do you call that chile Fertilizer?" asked the new neighbor.

"Ya see ma wife run out of names so we decided to name him after both of us. Ma name is Ferdinand and her name is Eliza, so we call him Fertilizer."

PART-TIME SCHOOL LAW CONDENSED FOR REFERENCE

Many parents in this city as well as many young people of a school age are interested in the part-time school law, which sets forth under what conditions such a young person may seek employment outside of school for part of each day. The following article, prepared by Robert E. Reed, teacher in the local high school, gives a condensed version of the part-time school law:

Persons Affected

Those between the ages of 16 and 18 years, who have not had a four-year high school course, who are not now attending either a full-time or part-time day class, and who are not exempt as specified below. Such persons can not be exempt because of night school attendance.

Exemptions

Those who, because of physical or mental defects, can not benefit by the instruction.

Those who must render personal service to dependents, who can not be otherwise provided for.

Those who reside more than three miles from a suitable class.

Length of Attendance Required

Pupils must attend part-time classes four 60-minute hours a week for the regularly established school term, or a minimum of 144 hours. (Attendance at regular day school will not count in the total of part-time hours unless previously agreed upon by the parents and teachers of the pupil.)

Hours of School and Work

A part-time pupil may work and attend school for not more than eight hours per day.

Penalty for Failure to Send Children to Part-Time Classes

The law provides that failure on the part of parent or guardian to send a child to school as provided above shall be liable, for the first offense, to a fine of not more than ten dollars or imprisonment for not more than five days, and for the subsequent offenses to a fine of not less than ten dollars and not more than fifty dollars or to imprisonment for not less than five days or more than twenty-five days.

Enforcement of the Compulsory Attendance

Five days after the opening of the fall term of the local high school, no employer may safely employ a youth between the ages of 16 and 18 years unless said youth has filed with him a certificate of enrollment and permit to work bearing the name of the high school principal of the district wherein the pupils reside.

Within five days after said youth has filed his certificate of enrollment and permit to work, said employer must, on a blank issued by the high school authorities and presented by the youth, notify the high school principal issuing the permit of such employment. Said notification shall briefly describe the character of the work performed by the minor and the time of day during which and the days of the week on which he is employed.

Said employer must retain on file permanently the enrollment certificate and permit to work mentioned above and a copy of the notification of employment sent to said high school principal. Should an employer be notified by the high school principal that he is employing a youth after he has already served during any day eight hours of time, he must forthwith desist from such excess employment.

URGES MERCHANTS PREPARE FOR BIG FALL BUSINESS

"Now is the time for the merchants to get busy. Fall campaigns for selling should start today."

Thus declares Sylvan L. Bernstein, chairman of the Manufacturers and Wholesalers' Association, in a statement to the San Francisco Chamber of Commerce in reference to Fall Market Week, to be held in San Francisco the week of September 18th.

Mr. Bernstein says both the Retail Dry Goods Association, which is co-operating, and the Manufacturers and Wholesalers' Association are looking forward to a very brisk fall business. He says:

"There is no longer any problem of unemployment. Local manufacturers have business enough on hand and in sight to employ double the number now at work. All of us find difficulty in having jobs completed. From all hands comes the lament, 'We are short of workers.'"

"Optimism founded on the desire to be cheerful is only a state of mind, but when all the elements are favorable and business is easily obtainable, to be otherwise than optimistic is an acknowledgment that you are in a trance."

"We know that all of the staple commodities in the raw are steadily advancing and that seasonable articles are difficult to procure in large quantities. If money is not made this fall it will be chiefly due to the fact that merchants have been ultra-conservative."

"Your calendar tells you that only four months remain for fall, winter and Christmas selling."

"The money market is easier than it has been for some time, clearly indicating a healthy return of confidence."

"One of the most interesting developments is the fact that many new institutions are operating in this territory."

If you've reached the age where you no longer have the impulse to follow

LOCAL AND PERSONAL

The Ruzic family will move into the Drakenfield place next week.

Mrs. George Clark and mother leave this week on a prolonged trip East.

August Lund commenced work this week on his new dwelling in First Addition.

Mrs. Charles Fischer has received word of the death of her aged mother in Germany.

Carl Holtberg and Newt Fields returned Friday from a two weeks outing up north.

Traffic Officer Lewis was back on the job again Sunday after a two weeks' vacation.

R. Rathke left this week for the East to join his family, who preceded him last spring.

Some mischievous persons recently got into Dietrich's private garage and did considerable damage to his new car.

The primary election here was a tame affair compared with the two city elections held the past ten months.

Mrs. Holm is a new candidate in the Admission Day queen contest, and promises to run the other candidates a merry race for the honors.

It is reported that Superintendent Knight has resigned as head of our city schools. Who his successor is to be has not yet been announced.

Now that the primary election is over with, everybody will be making preparations for the Admission Day picnic in Uncle Tom's Cabin grove on September 9th.

Two games of baseball were played last Sunday in the local league, the W. O. W. team nosing out the P. O. M. boys by a score of 19 to 18, while the Y. M. I. took the measure of the B. A. Y. to the tune of 10 to 8.

If interested in a house or a lot, you will do well to see us before you buy. We have some real good buys, and our word is as good as a bond. Investigate. Wm. Maurer, real estate and insurance, San Bruno, Calif.—Advt.

The members of the local volunteer fire department were agreeably surprised last Friday evening when their lady friends turned \$191.25 over to them as the proceeds of the recent firemen's whist party. Necessary equipment will be purchased with the money.

At the local baseball game last Sunday Miss L. Peters of Oakland, cousin of Miss Dorothy Jones, principal of the Northbrae school, was hit over the eye by a foul tip and knocked unconscious. She was hurried to a doctor, where she quickly revived. Aside from a discolored eye, Miss Peters is none the worse for her experience.

Unafraid.

"This is a nice canoe, isn't it, Maud?" said the tall, dark young man. "Very nice indeed, Charlie," replied the pretty girl sitting in the stern. "There's just one objection to it," said the young man.

"Indeed! And what is that?" she asked.

"Oh, well, you see, if you try to kiss a girl in this canoe there's great danger of upsetting it, and then both the fellow and the girl would be thrown into the river."

"Oh, indeed!" said the girl, reflectively. And she sat silent for a while. At length she remarked softly, "Charlie, I can swim."—London Tit-Bits.

No big man is as big as a small man is small.

SAN BRUNO, CALIF.
It Pays to Investigate!WORK ON SKYLINE BLVD.
TO BEGIN IN NEAR FUTURE

Early completion of the Skyline boulevard is the aim of the State Highway Commission, and following a meeting of the board in Sacramento Monday, at which deeds from the Spring Valley Water Company for rights of way were accepted, it was announced that bids for the grading on the second unit will be called for within the next ten days.

At the same time it was announced that immediate work would result from the permission granted by the United States government to extend the boulevard through Fort Funston.

The plans for the first work on the second unit will call for only the grading and the laying of five inches of gravel and crushed rock. It is hoped to have this portion of the work completed before the winter rains set in, and in this condition it will be permitted to remain throughout the winter months. Having thus been properly exposed to the weather, the concrete surface will be laid late next spring or early in the summer.

When you come to know how densely the earth is populated with "suckers," and how dense these "suckers" are, the wonder is not that so few men are honest, but that so many are.

THE ELECTION IS OVER

The primary election is over and now, for a short time at least, we can settle down to the regular routine of our daily life. Campaigning for the November election will not warm up for another month, and in the meantime it behooves all to forget politics for a few weeks.

Elections and the consequent political campaigns are, seemingly, necessary in a republican government, but they embody much that is not altogether pleasant. The election just closed has seen very little, fortunately, of the mud-slinging and recrimination that once characterized such affairs. The result cannot, in the nature of things, be satisfactory to everybody, but all should take that result in good spirit. It is the will of the people and that will should rule.

Let's forget politics for a short time now and apply our surplus energies toward boosting for that in which we are all interested, the welfare of South San Francisco and the peninsula region.

A NEW ELECTION LESSON

One thing taught by the returns from the primary election that may escape the ordinary reader is that the small country paper, the "home-town paper," played a tremendous part in the distribution of publicity leading up to the election and in the final analysis won out over its big city rivals. This is made clear in the victory of Friend W. Richardson over Governor William D. Stephens for the Republican nomination. Mr. Richardson waged practically his entire campaign through the medium of small papers. Probably 75 per cent of the country papers were for Richardson. The metropolitan dailies were, almost without exception, for Stephens. They discounted Mr. Richardson's chances and persisted in their belief that Stephens had a "walkover." The finals show that Richardson has won the nomination, which proves beyond the possibility of doubt that when it comes to real pulling power the country press has it "all over" the big papers. The small paper goes into the home and is read from end to end. The big paper is merely skimmed over. Many large advertisers realize this fact and more are coming to do so every day. The lesson as set forth here will not be overlooked by many of these keen buyers of advertising space. It is certainly the country press that won the nomination for Friend W. Richardson.

THE BUY AT HOME CAMPAIGN

Beginning with this week the members of the South San Francisco Merchants' Association are starting what promises to be the biggest thing of its kind ever attempted here. It is a campaign to encourage trading with the merchants of this city. During this campaign, which is planned to last till Christmas, coupons will be given away with purchases, and these coupons, or their value in \$10 numbered certificates, will draw valuable prizes. Every public-spirited resident of this city should help the campaign along. It is for the good of South San Francisco, and every person living here should be interested in boosting for anything that helps this town. A spirit of progress and of boosting is in the air all over California. Let's do our part and boost South San Francisco. Help the local merchants and by so doing help yourself.

LET'S WORK FOR FREE-PORT ZONES

A news item from Washington, D. C., under recent date contained the following:

"An amendment to the tariff bill adopted today provides for the establishment of free zones for export trade within ports of the United States. The purpose of the amendment, which is in general terms applying to all commodities, is to permit the importation, without payment of duty, of raw materials to be used in the manufacture of finished products for export.

"This provision was incorporated by adding to the tariff bill, as an amendment, the Jones bill providing for the establishment at various ports of zones to which goods designed for export may be admitted without payment of duty, under regulations to protect the federal treasury and to prevent the entrance of such goods into domestic commerce."

This means that again channels are opened for the securing of free-port zones. The Jones bill was introduced by Senator Jones of the state of Washington and, August 21, 1921, was referred to the senate committee on commerce, where it was allowed to go to sleep. There is evidence in the above dispatch that an effort is being made to resurrect it, and it certainly behooves our representatives in congress to get behind the movement and give their best efforts to seeing that the bill, or, as it now stands, the amendment, is retained in the conference report. Should it be so retained there will be an excellent chance for free-port zones to become a reality in this country as they are today in several of the largest foreign countries. This would be almost sure to result in one of these zones being established on San Francisco bay. With the proper support from our congressmen and senators that zone could be located on the peninsula, and probably no one improvement would mean more for this region than a federal free-port zone.

The progress of the tariff bill and the amendment referred to will be watched with interest by residents of the peninsula, and all possible pressure should be brought to bear on our representatives in congress to the end that we secure a free port here.

Many an old duck looks at a pretty and dashing girl and prides himself on the thought that he has kissed her—when she was a baby.

All Over the State Just Now

Punchettes

When you face the world and try to do something for the benefit of mankind, you are confronted with serious problems. How to solve them, how to eradicate the evils, and how to succeed in the work of general betterment is, of course, a great task. The following problems, if solved, would bring America peace, happiness, and prosperity. Let us solve them.

SOME PROBLEMS

FIRST—Apathy. America's people love good humor. Feed them well and permit them to sleep and they will laugh through any storm and ride through any disaster. Immediately after the disasters of life have apparently passed, however, they settle down into a state of apathy. That condition is today setting upon us.

During the war, we preached preparation, watchfulness, and the curbing of all radical forces. When peace was announced, we settled back into the habit of eating, sleeping, and laughing. The "red" forces didn't sleep; the powers antagonistic to good government didn't sleep. Apathy is the enemy of preparation. America has never been ready for any war, and unless we cure apathy, we will never be ready for any battle. Every boy in America should have at least three months of military training; every young man in America should take advantage of the Citizen's Training Camp every summer.

SECOND—Broken family altars. Ninety-three per cent of the homes of America are without family altars, and ninety-nine per cent of the homes of the world are without family altars. You cannot rear a family in an un-Godly atmosphere and give to the world virtuous sons and daughters. Millions of our people have passed through the infamous divorce court because the family altar was not in the home to check the march toward domestic destruction.

THIRD—Sabbath desecration. Men cannot ignore the law of God which commands every man to stand still and rest on the first day of the week. The Sabbath desecration which is on the increase in this country is largely responsible for the confusion, the chaos, and the anarchy that is rampant in this land. Bring men back to the observance of the Holy Sabbath.

FOURTH—Neglected spiritual duties. It is the duty of every man to be in his church every Sunday morning, to give his child a spiritual education, to let before his family a spiritual example, and to give some of his time to the spiritual work of the church. Men are neglecting their churches; they are forgetting their spiritual duties; they are omitting to pay their obligations to God.

America was intended to be a land of Christian people. You can't be Christian and neglect your spiritual obligations.

Rev. M. A. Matthews, D.D., L.L.D., Autocaster

poem by UNCLE JOHN

In summer evenin's, calm an' still, we used to hear the whippoorwill send forth his plaintive note; we heard the twitter of the frog—the baying of the old coon-dawg,—the gruntin' of the shot. . . . The glory of the summer night, when cricket's chirp an' skelter's bite, lent spirit to the hour,—delightful in its warp an' woof, the rain-drops on the clapboard roof, grew dreamers full of power. . . . But now, alas! The modern way commences when we hit the hay, an' scorns the midnight bell. . . . We hear the squawks from Timbuctoo—the dismal groans from Waterloo,—the frenzied shrieks from hell! We gather in all noise that's made,—the devilish rot of every grade—broadcast through the air. . . . We tune our dingus up at night, and ketch the hymns of hate an' spite, that's let off—everywhere!

WIRELESS

For your own Uncle John.

Hard Luck.

The young man arrived at the party and made his way to the hostess, greeting her and apologizing for his lateness.

"Awfully glad to see you, Mr. Bones," said the hostess. "So good of you to come. But where is your brother?"

"We are so busy just now that it was impossible for both of us to get away, and so we tossed up to see which of us should come."

"How nice! And you won?"

"No," replied the young man, absently. "I lost!"

brother?"

HOMER PHILLOSOPHY for 1922

HALF of us don't begin to think before we're thirty-five. We just think we think. When we get to forty we're still fools but some of us know it. We have a right to expect twenty-three years of life. At forty-five we may expect to live twenty years, at fifty we can look forward to sixteen years and at fifty-five, thirteen years and the bell will ring if it don't ring before. Fancy a fellow having thirteen years to live taking time fault finding. He sleeps half the time. That cuts him down to six and a half years. Chop out holidays, Sundays, time for three a day and he's just got time to start what he hopes to finish. Come to think of it, some of us had better quit picking on the other fellow and get busy.

HOME SWEET HOME

To Pump or not to Pump?—the Question

by Terry Gilkison

IMPRESSING THE JAPS

Secretary of Navy Denby went to the Orient on a peaceful mission, nevertheless, his stop in Japan did not fail to impress the little islanders. His great size was made more conspicuous as he walked through the palace grounds with Admiral Uriu. His wife is with him.

READY FOR THE JUDGES

Youthful calf-club and pig-club members are already grooming their pets for fall judging. Betty Compton, however, enters her black-faced sheep.

Suzanne Avenged—Now the Test

Mlle. Suzanne Lenglen, temperamental French tennis champion, who quit in her match against Molla Bjursted Mallory, American champion, last year, was avenged last week at London when in the English finals she won over Mrs. Mallory, 6-2, 6-0. An effort is now being made to have Suzanne come to the United States for a third and

CURED

By MARTHA M. BARTLETT

© 1922, by McClure Newspaper Syndicate.

Every night, while the world was adjusting its sleeping mantle a devotional service was held in Nella Upton's home. The little girl always listened to the conclusion of her father's prayer: "And keep us from all danger and accident—all calamity and heart wanderings."

"Heart wanderings!" thought brown-eyed Nella. "What does that mean? My heart cannot travel over the earth, into Europe and Asia, unless I go with it."

She found the explanation of one phase, at least, after she married John Worthington—a machinist of exemplary habits.

For a year they lived in great happiness. Then Nella became sick. It was serious enough—tonsillitis and the accompanying weakness. A maid was obtained at \$10 per week.

Young Doctor Skelton came daily. During Nella's convalescence she looked forward eagerly to his regular visits. At first it was simply the pleasure of seeing some one from the outside world. Then, after a while, when his footsteps sounded on the walk, her heart would beat so wildly that she felt she must hide from his sight.

And always her pulse must be counted. "Why, this will never do," he said one day. "Your pulse is way above normal. Have you had any undue excitement?"

"Oh, no," she replied, "nothing exciting, unless winding the clock and putting out the cat at night come under that head."

"Well, well, I must look after you and see that you get strong." He held her hand as he again counted her pulse. "Ah, you need more nourishing food." He then went into the kitchen and gave explicit directions to the maid, writing a list for her guidance. Tender lamb chops, chicken, juicy beefsteak, baked potatoes, oysters, newly opened, the freshest eggs, dessert, something dainty, a pineapple gelatin with whipped cream was very tasty.

As the figure of the doctor disappeared, the maid drew herself erect, put her arms akimbo, and ran out her tongue for the benefit of the door-knob.

One day, wishing to thoroughly examine Nella's throat, the doctor washed his hands, and dried them on a Turkish towel. Afterward Nella touched it lovingly—then she held it to her face. The fragrance of a choice Havana still lingered. She passionately clasped the towel to her heart and whispered tensely: "I love him, oh, how I love him."

When the doctor's visits ceased, Nella went about the house in a daze. She could still feel his presence—the touch of his wonderful hands on her wrist. She contrasted those hands, so soft and clean, with the hard, work-stained ones of her husband. The doctor's manner was tender and deferential, while John was occasionally rough, and lately he had been saying things under his breath. The secret love was such an uplift to her soul!

Two weeks passed, and then one morning the postman brought a letter. The handwriting was not familiar, but in the upper left hand corner was the professional address of Doctor Skelton. A bright flash overspread her face.

"At last," she breathed, "he is declaring his love for me." With shaking fingers she opened the envelope.

What was this?

"Dr. Harold Skelton—In account with Mrs. John Worthington, 36 visits at \$3 per visit, \$105.00."

For a whole hour Nella sat at the table staring into vacancy. One hundred and five dollars! John was having a hard time, with work out to three days a week. Often he looked glum and worried.

Finally Nella roused herself and went to the kitchen. To the girl she spoke briefly: "I really cannot afford to keep you any longer. I know a woman, however, who needs a maid at once, so you will not be inconvenienced by this short notice."

Soon Nella was dressed for the street. She hastened to the business office of Taylor & Co., where, before her marriage, she had been employed as stenographer. One hour later she emerged with a radiant face. "Mr. Taylor had promptly engaged her for \$20 per week."

That night John found a happy little woman preparing his supper. She told him of her intention to earn money.

"Why, Nella!" he exclaimed, with his arms about her, "what does this mean? Are you sure you are well enough to work?"

To which Nella answered, reserving part of the meaning for herself: "Oh, yes, John. I'm cured. Entirely cured."

Paint Absorbs the Echo.

A hall which has conflicting echoes may be improved by rebuilding to the extent of changing some of the lining of the interior, but a second method is to make the reflecting wall a good absorber, so that the sound is swallowed up and little or none reflected. Painting the wall accomplishes this. It is less expensive than the other methods and can be easily done. The paint, however, to have the greatest sound absorbing factor, should have the qualities of porosity and flexibility; consequently thickness is a very important requisite. High plasticity is desirable for certain finishes. Several successive coats of paint may be applied, or one heavy coat with the spe-

WHY

Indians Mark Desert Springs With Small Rock Heaps

In traveling over the plains of western Texas one now and then comes upon little isolated heaps of rocks, in twos, that at first glance seem not at all remarkable.

After a time, however, one notices that one heap is generally about three feet high and the other about a foot lower. The two are always within a few feet of each other and usually on an elevation or a plateau commanding a view of the country for five miles or more. The rocks are roughly heaped together, as if left by children at play.

In time one learns the significance of these rock heaps, as he talks with some of the Indians, who know by heart all the legends and customs and deeds of their people.

According to these Indians, when the Great Spirit lapped up the mighty rivers of the plains, he left springs and water basins here and there for the antelope and the Indians. These the antelope easily found by scent, but the Indian had to search long and anxiously for them. Once found, they were seldom lost, thanks to these rude rock heaps.

You may see an Indian crouch down behind the taller heap, sight over the low one and mark the farthest object in a straight line, which is likely to be a clump of bushes on the horizon. Then he rides toward these bushes and finds—not water, as he expected, but two other heaps of rocks.

Sighting as before, and taking a rock-faced cliff, perhaps toward the southwest, as a goal, he rides a couple of miles farther, and there, trickling out from beneath the cliff's rocky brow, is a spring of fresh, clear water.

It is said that whenever a band of Indians come upon a new spring they built the rock heaps along the trail. At any rate, it appears that these rude signposts lead either to water or to places that show traces of a former watercourse.—Christian Science Monitor.

WATCH FOR DANGER SIGNAL

Why One Should Pause for Reflection When Daily Task Becomes Easy of Accomplishment.

Has your work become very easy? Do you find you could do it with little effort? Has it ceased to impose any strain or fatigue upon you? Do you no longer feel loss of vitality after a long spell of it? Can you now do it "as easy as water rolls off a duck's back"? If so, look out. Do some stock-taking. Examine your output. Analyze your attitude towards your work. Ask yourself whether you are putting your whole self, your whole heart and soul into your job. Ponder whether you are exerting yourself to the utmost to produce the maximum results.

No work should be easy if done with all one's might and main. Every job should "take it out of a man" if he expends every ounce of his energy in doing it the very best way within his power. Work done with little effort is liable to yield little result. Every job can be done excellently or indifferently. Excellence necessitates effort—hard, sustained, concentrated effort.

So, if you are sleeping over your job, instead of sweating over it, overhaul yourself.—Forbes Magazine.

Why Helicopter Is of Little Value.

While the Brennan helicopter is expected to revolutionize civil flying, a British artillery colonel opines it will not be of much benefit to armies in the event of war.

According to the London Graphic, this officer says such a machine would prove an easy mark for a modern "archie" or aircraft gun, its very stability proving its downfall. "It was difficult," he declared, "to hit an ordinary airplane flying 10,000 feet high at the rate of 100 miles an hour, but we did it. What about a stationary one?"

When it was pointed out to him that the new machine claimed to be practically invisible at 5,000 feet, the officer replied: "With modern developments in anti-aircraft artillery we could plaster the whole area with high-explosive shells, from the explosion of which nothing could escape."

Why Icebergs Can't Be Measured.

It is practically impossible to obtain the measurements of an iceberg below and above water on account of its size; and, probably for that reason, the statistics given by different authorities vary considerably. The Encyclopedia Britannica says, when describing icebergs, that, "Only one-ninth of the mass of ice is seen above water," while in other works statements are made that icebergs float with about one-eighth of their volume above the surface of the water and seven-eighths below it, and that they float with only one-seventh or one-sixth of the ice above the surface of the sea.

Why He Enjoyed It.

"How can you wear a dreamy look when that jazz orchestra is making such an infernal racket?" "It carries me back to my happy childhood," said the cabaret patron. "I was brought up in the shadow of a boiler factory."—Birmingham Age-Herald.

Why He Was Good Match.

"She's making a fine match." "That so? I understand the young man is very wild in his ways." "Wild. He is. Drinks a lot and does all manner of things he shouldn't, but it's a good match. His folks have

ONE JOURNAL IN GREENLAND

And the Editor of That One Had to Teach His Subscribers How to Read It.

Journalism in Greenland is in rather a primitive stage, according to the captain of a British bark. The captain makes frequent voyages to Greenland and is held to be an authority on conditions in that country.

The one editor in Greenland is a Dane named Moeller, who conducts the only newspaper and enjoys the singular distinction of printing the paper for the natives and teaching them to read it.

Mr. Moeller is not only the editor and proprietor; he is the reporter, printer, distributor and business manager, and every two weeks he makes a long journey on skates to dispose of his journal.

Originally it contained only a few crude illustrations, but gradually other matter was introduced, until now it contains articles on the affairs of the day.

This man actually taught his subscribers to read his paper, first introducing words, then sentences, until now his subscribers are able to read articles on any topic he cares to write about.

FORMED NEW VOCAL CORD

Tissues, After Operation, Grew Together, and Voice Is Said to Be Improved.

In three out of four cases in which Dr. H. Burger resected the vocal cords the tissues grew together to form a new vocal cord. He reports to the Nederlandsche Tijdschrift v. Geneeskunde (Amsterdam) that the more radical the operation on the side wall of the throat the more the new cord approximated normal.

In all these cases the diagnosis of malignant tumor was beyond question, and the operation was done through a slit in the thyroid cartilage. No attempt was made to suture this afterward. The voice is good in all but one, who still is hoarse. The voice is very much better than in other cases in which merely the growth itself was resected and the rest of the vocal cord left. The repair after this is much less perfect. In one of his cases the repair was so perfect that in examining with the laryngoscope a year later there was some doubt as to the operated side.—New York World.

Saw Volcano in Action.

A volcano in action was witnessed about six weeks ago by the captain of the British freighter Bounty, off the West African coast. The skipper said the Bounty was about five miles off shore when he observed smoke pouring high and profusely out of a peak inward from the Blight of Biafra, near the boundary line between Kamerun and Nigeria. Thinking he might be of assistance in the event of disaster to the villages near the seacoast he put in toward shore and went to the land in a lifeboat. He said the smoking peak was about 11,000 feet above sea level and on its westward side he observed large streams of lava. Finding no signs of human life along the shore he went back to the freighter and proceeded on his course.

Put Out Fires With Glass Balls.

A glass ball, the glass being thin and easily shattered, and about the size of an egg, filled with a standard flame-killing liquid, is now being put on the market.

Most fires can be extinguished with little danger and little loss if proper means are available for prompt use. Experiments have shown that a few of these new glass balls or fire-ouzes, as they are called, will quickly snuff out a bad blaze.

In the past most fire extinguishers have been rather high-priced. This new extinguisher is a notable exception—the three balls which comprise a set being retailed for only 30 cents per set. A set of three balls comes in an ingenious carton which can be hung from the wall.

Not Pretty Music.

Dorothy, three years old, lives at New Albany. Her father took her to the barber shop to have her hair trimmed, and the electric clippers at most drove the little girl into spasms of fear despite the kind assurances that they would not hurt her. She had a big wuth-ice before the task was completed.

Next day Dorothy went to visit a neighbor who lived near the barber shop. Shortly after her arrival she heard music and inquired its location. On being informed that it was at the barber's she replied:

"Well, I don't think his music is pretty."—Indianapolis News.

American Money in Canada.

It is estimated that American investments in Canada for 1920 amounted to \$325,000,000—more than half of the prewar Canadian investment. Some of the items of investment during the period under review are: Bonds purchased, \$237,000,000; industrial investment, \$50,000,000; western lands purchased, \$7,000,000. It is also estimated that \$30,000,000 of the \$325,000,000 invested in industries went into the pulp and paper business.

Immediate Results.

"Did you give your wife that lecture on economy you said you were going to?" "Yes, I did." "Have any effect?" "Yes; I'm going to make my last summer's suit for this summer."

NOTICE INVITING SEALED PROPOSALS.

NO. 49

Pursuant to the statute and to the resolution of the Board of Trustees of the City of South San Francisco directing this notice, said Board of Trustees hereby invites sealed proposals or bids for doing the following work in said city, to-wit:

That Grand Avenue from the center line of Division Street to the western line of Spruce Avenue, and from the southerly line of Commercial Avenue to the northerly line of Miller Avenue, be improved by grading, paving, and by installing the following work in said city, to-wit:

That Grand Avenue from the center line of Division Street to the western line of Spruce Avenue, and from the southerly line of Commercial Avenue to the northerly line of Miller Avenue, be improved by grading, paving, and by installing the following work in said city, to-wit:

NOTICE OF AWARD OF CONTRACT.

NO. 48

Pursuant to the statute and to the resolution of the Board of Trustees of the City of South San Francisco, directing this notice, said Board of Trustees hereby gives that said Board of Trustees in open session on the 7th day of August, 1922, publicly opened, examined and declared all sealed proposals or bids for doing the following work in said city, to-wit:

Section A. That the following streets and avenues in said city be improved by grading the same on the official line and grade for the full width thereof and upon the portions thereof hereinafter and in this section designated as follows, to-wit:

School Street from the southerly line of Olive Avenue to the southerly terminus of School Street; Olive Avenue from the southerly line of Armour Avenue to the northwesterly terminus of Olive Avenue; excepting therefrom, however, any and all such grading which has already been done on the existing round corner or curb return at the southeast corner of Olive Avenue and Armour Avenue.

Section B. Also that cement sidewalks and combination cement concrete curbs and gutters be constructed of the dimensions and at the locations shown upon the plans hereinafter referred to, on the following named avenue and street, to-wit:

On both sides of School Street from the southerly line of Olive Avenue to the southerly terminus of School Street; on the northwesterly side of Olive Avenue; on the north-easterly side of Olive Avenue from the existing curb, gutter and sidewalk on the northwesterly side of Olive Avenue, to the easterly side of Olive Avenue, to the northwesterly terminus of Olive Avenue.

Section C. Also that an asphaltic concrete pavement, consisting of a cement concrete base Four (4) inches in thickness and an asphalt concrete wearing surface One and One-half (1 1/2) inches in thickness, be constructed in the streets and avenues hereinafter mentioned, for the full width thereof, and for a width extending between the gutters, as shown upon the plans hereinafter referred to:

Section D. Also that Forty-six (46) feet of Twelve (12) inch vitrified, salt-glazed iron pipe sewer and Two (2) storm water pipes, each having a diameter of Twelve (12) inches, and covered with cast iron frames and covers be constructed across Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section E. Also that a Six (6) inch vitrified, salt-glazed iron pipe main sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section F. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section G. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section H. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section I. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section J. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section K. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section L. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section M. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section N. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section O. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section P. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section Q. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section R. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section S. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section T. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section U. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section V. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section W. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section X. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section Y. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

Section Z. Also that Six (6) Four (4) inch vitrified, salt-glazed iron pipe sewer laterally upon the southerly side of Olive Avenue, of the dimensions and at the locations particularly shown upon the plans hereinafter referred to:

(\$2.20) per lineal foot; manholes, Ninety Dollars (\$90.00) each; lateral sewers, One and 20/100 Dollars (\$1.20) each. Dated August 8, 1922. DANIEL McSWEENEY, City Clerk.

Raisin Lacto. Beat the yolks and whites of two eggs separately and add them to three cupfuls of sugar, mixed with two quarts of skimmed milk and 1 1/2 cupfuls of plumped and chopped raisins. When partly frozen add the juice of a lemon.

San Rafael—Shipments through San Rafael canal increase over 500 per cent; many Eastern shipments via Panama canal received.

San Fernando—Big Pine fertilizer plant nears completion, to operate September 1st. Capacity 100 tons of fertilizer every twenty-four hours.

Santa Cruz—Concrete work finished on Brookdale road.

Colusa—California prune and apricot growers' new prune packing plant will be completed September 1st.

Los Angeles fighting for \$12,000,000 bond issue for new sewage disposal plant.

Mining revival is under way at Alleghany City; 500 men now employed in camp.

Los Angeles—Work on \$153,000 permanent improvement work on Pacific Electric tracks under way.

Sawyers Bar—Opening of roads starts new activity in old prospects; mining boom in Salmon river district predicted.

Eureka—Local construction company gets \$33,000 contract for construction of three steel bridges across

INSTRUMENTS FILED FOR RECORD IN SAN MATEO CO.

Furnished by the
RICE ABSTRACT COMPANY
Redwood City.

John Arnerich and wife to Helene Irwin Crocker—Lot 21, block 45, Bowie Estate, Eastern Addition, San Mateo.

James Looney and wife to William Foley—Lot 6, block 33, Western Addition, San Mateo.

Clara W. Regnier and husband to Mary Gough Lane—Lot 1, block 7, Burlingame Park 2.

Thomas G. Morton and wife to Charlotte M. Coyle—Lot 8, block 40, Bowie Estate, Eastern Addition, San Mateo.

E. W. Magruder and wife to Albert Blanchard and wife—Lot 14, block 2, subdivision lot 23, Wooster, Whitton & Montgomery Subdivision.

Wayne Wells to Nina Edgeworth Wells—Quitclaim lots 17 to 22, 31 to 36, block 35, North Fair Oaks 3.

Albert Blanchard and wife to Ferdinand Seiler—Lot 14, block 2, subdivision lot 23, W. W. & M. Sub.

Edward Ruedy and wife to Rae T. McGaughey and husband—Portion lot 2, block 7A, Western Addition, San Mateo.

Lionel Shaw and wife to Frank Crompton Anders and wife—Lot 13, block 31, Easton 2.

George M. Black and wife to Daniel Bonner—Southwest half lot 44, Stanford Park Annex.

Charles T. Rodolph and wife to Bert Linthorn—Lot 6, block 13, Easton.

Jennie L. Doughty and husband to Robert L. Eltringham and wife—Lot 8, block 4, Central Addition, San Mateo.

Jessie F. Crandell to Mary O. and Emily A. Leighton—250 feet on North street, Pescadero.

Jennie A. Brooke and husband to Mrs. Mary Meyer—Lots 16 and 17, block 1, Miramontes Tract 2.

Eva E. Behrens and husband to Homer J. Martine and wife—Lots 1 to 12, block 14, range B, Redwood.

Henrietta M. Hansen and husband to I. Karmel and wife—Lot 45, Burlingame Heights.

James E. Corscadden to John Rehe—Portion lot 1, block 13, Burlingame.

Thomas Ward Berry to M. J. Berry—Lot 20, block 6, Miramar Terrace.

Fredwin H. Somers and wife to E. A. Ulsteen—Lots 7 and 8, block 28, Dumbarton.

E. A. Ulsteen and wife to Fredwin H. Somers—Lot 27, block 25, Dumbarton.

John H. Sherry et al. to Francis J. Roberts—Lot 4, block 5, Granada 1.

Francis J. Roberts and wife to Manuel Serpa—Lots 39, 40, 4, same block.

Elizabeth Durkee and husband to Thomas O'Hara—Southeast 45 feet lot 9, block 32, Lyon & Hoag.

Tacoma Land Company to Charles H. Beal—80 acres on Alpine road.

Same to Henry Delmo and wife—125.03 feet on highway near Menlo.

W. M. Warner and wife to Martha Thiessen—Lot 34, block 41, Granada.

A. Bearwald and wife to G. R. Gadd and B. J. Norberg—Lots 13 and 14, block 6, Easton.

Ellen McSweeney to Michael McSweeney—Lot 16, block F, Hayward Park.

William Peet and wife to Edward C. Harkins—Lot 19, block 9, Easton.

Michele Micheli to George F. Eade—Quitclaim portion lots 33 and 34, block 5, Vista Grande.

Estate of Richard F. Dubberke to Rhoda Dubberke—Lot 10, block 20, San Mateo.

Huntington Park Realty Company to Lena Fourniguer—Lot 14, block 24, First Addition, Huntington Park.

Percy T. Hannigan and wife to San Francisco Commercial Company—Lots in subdivisions 1, 2, 3, Brighton Beach.

Brighton Beach Land and Amusement Company to same—Same lots.

Genevieve J. Sullivan and husband to Charles A. Compton and wife—3.33 acres, portion lot 5, vuillota Tract.

Olga Beer and husband to W. H. Matson and wife—Northwest half lot 141, San Mateo Park 2, re-record 44-295 O. R.

Home Savings Bank to Carl A. Tortello—Lots 19 and 20, block 62, Easton 7.

A. H. Cohen and wife to K. E. Loy—Lot 14, block 1, Civic Center Tract.

Charles Weeks and wife to Mary C. Gallagher—Lot 39, Fourth Addition, Runnymede.

Partridge Realty Company to Charlena Van Vleck Anderson—Lot 29, block 1, Partridge Subdivision, Menlo.

Charlena Van Vleck Anderson to George Raymond and wife—Same.

Emma H. MacKenzie to W. F. Geldert—Lot 18, east half 19, block 27, Easton 2.

Reuben W. Smith and wife to James H. Bridgewater and wife—Lot 14, block 102, South San Francisco.

Tacoma Land Company to Lydia C. Fabian and husband—Lots 25 and 26, Stanford Week-End Acres.

Martha A. Atkinson and husband to W. F. Geldert—25 feet of lot 19, block 27, Easton.

South San Francisco Land and Improvement Company to Reuben W. Smith and wife—West 27 feet of lot 14, block 102, South San Francisco.

Alice E. C. Barry and husband to Frank Banchemo—Portion lots 8, 9, block 67, Eastern Addition, Redwood.

Anglo-California Trust Company to Genevieve E. Ingram—Lot 39, block 38, North Fair Oaks 3.

William R. Fait and wife to Abbie T. Montell—Lot 17, block 10, Stanford Park.

Jennie S. High and husband to Beulah W. Davis—Lot 37, block 30, Easton 2.

Christian Olsen to Oscar M. Olsen—Lots 13, 14, 15, block 50, North Fair Oaks 2.

Oscar M. Olsen to Christian Olsen and wife—Same lots.

San Mateo Improvement Company to Carl Solstrom and wife—Lot 17, block H, Hayward Park.

Sherman T. Blake and wife to Mercantile Trust Company—138.54 feet on highway by 230.85 feet on Roble avenue, Menlo.

eagle—Quitclaim 110 feet on Edgell road, Highland Park 2.

Mercantile Trust Company to Victor Stanquist—Lots 17 and 18, block 24, San Carlos.

Bessie L. Partridge and husband to Beulah W. Davis—Lot 36, block 30, Easton.

South San Francisco Land and Improvement Company to Erminio Fregosi and wife—Lot 29, block 130, South San Francisco.

Hazel S. Day and husband to Robert A. Cairns—Lot 12, block 37, Eastern Addition, San Mateo.

The Mission Bank to Charlotte Matilda Hanlon—Lot 8, block 2, Burlingame Villa Park.

Mary E. Sheehan and husband to William A. Sheehan—Lot 7, block 37, Lyon & Hoag Subdivision.

San Mateo Improvement Company to Leola V. Scanlan—Lot 7, block 1, Hayward Park 3.

Florence M. Pedersen and husband to George E. Knippenberg and wife—Lot 23, block 8, subdivision 2, Burlingame Park.

Anglo-California Trust Company to Louis W. Aff and wife—Lot 30, Emerald Lake Park.

Barbetta Smith to Frederick Schroeder—Lot 31, block 40, Easton 3.

Rosa Landini to Julius W. Landini et al.—Lot 8, block 10, Crocker Tract.

Davenport Bromfield and wife to Clarissa U. Luce—Lot 12, Sierra Morena Woods.

Same to Elmina A. Potter—Lot 11, same tract.

Francis H. Wunderlich to Matthew Joseph Withers Graham and wife—Lot 5, block N, San Mateo Heights 2.

Matthew Joseph Withers Graham and wife to James McClure and wife—Same lot.

Baldwin & Howell to California-Pacific Title Insurance Company—Lot 225, subdivision 3, San Mateo Park.

Clarence S. Crary and wife to Illyd D. Llewellyn—15 feet on Edgell, portion lot E, block 1, Burlingame Terrace 2.

Illyd D. Llewellyn to Albert J. Palmer and wife—60 feet on Edgell, portion lots E and F, same block.

Diedrich Borchers to Louis E. Rice—Lot 23, block 1, Hayward Park 3.

Giovanni Guido to M. R. Helmer and wife—Lot 18, block 18, Lomita Park.

Owners Realty Company to John L. Debenedetti—Lots in Venice Beach.

John L. Debenedetti and wife to George W. Webb et al.—Same lots.

Antonio Victorino Azevedo and wife to G. W. Webb—One-third acre on San Mateo-Halfmoon Bay road, re-record 258-166.

H. D. McGarvey to Harrison G. Woodman and wife—Lot 12, Reese Subdivision.

S. A. Born and wife to Howard D. Dietrich and wife—Lot 10 (except west 30 feet), Brewer property.

Joseph Grimes and wife to James A. Nelson—Lot 19, block 2, subdivision 2, Burlingame Park.

M. J. Conway and wife to Charles A. Peach—Portion lot 156, San Mateo Park 2.

Enoch Straw and wife to George B. Mulford—Lot 24, Fourth Addition, Runnymede.

John W. Rutherford to Mary Cronin—Lot 11, block 3, Glenwood Park.

C. H. Holt and wife to Jacopo Giannini—Southwest half lot 26, block 4, Jefferson Acres.

Emmett Crosby and wife to Orville E. Valentine—Lots 7 and 8, block 4, South Balboa Tract.

Maria R. Serpa to Peter R. Serpa—Quitclaim lots 10, 13, 14, 15, 21, block 2, Miramontes Tract 3.

LOCAL HAPPENINGS

Mrs. Mary Di Vita has left on a trip to Canada to visit her mother.

Mrs. T. Schwingel and son, Bobbie, spent the week-end visiting friends at Halfmoon Bay.

Mrs. Dan McSweeney returned last week from a seven weeks' stay with friends at Portola.

J. J. Jones, mail carrier at the local postoffice, will be transferred Friday to the San Francisco postoffice.

Mrs. E. P. Kauffmann, who has been spending a vacation at Guerneville, returned the first of this week.

Miss Ruth Snyder, daughter of Mr. and Mrs. J. O. Snyder, entered the University of California this week.

Charles Grant of the Bank of South San Francisco will very shortly move from Daly City to San Bruno to make his home.

Mrs. Anna Woodman spent last week-end at Seabright and Santa Cruz visiting her friend, Mrs. J. Kalek of Stockton.

Mrs. W. C. Roberts and daughter, Jane, returned last week from a two weeks' visit with Mrs. Roberts' parents at Berkeley.

Henry Knott returned today from a six months' trip to Europe. Mr. Knott reports having had a most enjoyable vacation and interesting trip.

Mr. and Mrs. Etienne N. Fourcans returned Saturday from their honeymoon spent in the southern part of the state, and Mrs. Fourcans has resumed his position at the bank.

BORN

TRAIQUERIO—In South San Francisco, August 27, 1922, to the wife of Frank Traiquerio, a son.

ROSAIA—In South San Francisco, August 11, 1922, to the wife of Dente Rosalia, a son.

TAJLA—In South San Francisco, August 12, 1922, to the wife of Julio Tajla, a daughter.

GHIARDI—In South San Francisco, August 13, 1922, to the wife of F. Ghiardi, a son.

ROVELLA—In South San Francisco, August 8, 1922, to the wife of J. P. Rovella, a daughter.

DIED

STORLING—At the County Hospital, August 28, 1922, Giuseppe Storling, aged 55 years. The deceased had been a resident of South San Francisco for about eight years. The burial took place from the Nieri undertaking parlors this (Thursday) afternoon, with burial at the Italian Cemetery.

LICENSED IN SAN FRANCISCO.

Luigi Bacigalupi, 27, and Ellia Tealdi, 17, both of Colma.

THE BROWNS GRATEFUL.

We deem it a signal honor to have received the nomination for one of the two positions as justice of the peace in the first district by such a large vote, owing to the fact that it was our first political experience, so that we had to meet and interest many new acquaintances, and that all of our opponents were men of the highest character and, therefore, no mistake would have been made had any of them been successful.

We are sincerely grateful, of course, to the kind ladies and gentlemen who gave us their votes. They have been so loyal and made so many personal sacrifices that we feel that it is useless to attempt to express in words the gratitude of our hearts. We can only repay them by endeavoring to merit a continuation of their confidence and good will.

The most kindly feeling is also extended to those who did not give us their support, for their courtesy to us in our visits to their homes or elsewhere, which was of that classic order that causes genuine admiration, and therefore our canvassing during the past three months has been a real pleasure. Everybody has been nice to us and the campaign has been one of the cleanest in the history of San Mateo county.

We need a rest and so do the voters, therefore we shall not enter upon the campaign for the general election, on November 7th, for a couple of weeks. In the meantime, be assured that the progressive ideas we have advanced as to the duties of a justice of the peace will ever be our sincere intention.

Very respectfully,

J. L. BROWN,
ETHEL BROWN.

Daly City, Calif., August 31, 1922.

WHY

Discharge of Oil Waste Into Water Should Be Stopped

The ever-increasing practice of discharging oil and tar wastes into streams and harbors, and its effect on fish and fish industries, is strikingly set forth in a pamphlet issued by the bureau of fisheries. The fatal contamination that results from poisonous substances rejected by gas plants and petroleum distilleries, or dumped from tankers and oil-burning ships, must result in huge losses of food products and money. First it should be distinctly understood that the presence of a minute quantity of poison is sufficient to kill. For example, the American sunfish, though highly resistant to poisons, will die in about an hour in water four to five parts per million of phenanthrene or naphthalene, or five parts per million of hydrogen sulphide, or seven parts per million of ammonia; and, of course, very much weaker solutions will kill if the fish are exposed to them for several days.

Aside from this direct toxic effect, such pollution repels the fish from approaching shore at the only time when they might be caught; sickens or kills bottom-dwelling species such as oysters; kills, by suffocation, floating eggs and delicate larvae; destroys minute plants and animals on which the larvae and adult fish subsist; affects aquatic life by diminishing the aeration of the water, and destroys spawning grounds. Even petroleum products that contain no poisonous substance soluble in water may, by agitation, form a deadly emulsion that will kill in five minutes. Tanned roads also send their poisonous washings into the smaller streams. Remedial measures may be found in the commercial recovery of oils from drainage water, in the prevention of gashouse and refinery pollution with an increased use of wastes, and in regulations forbidding the dumping of oil from ships in harbors or near spawning grounds and feeding areas.—Scientific American.

ALL IN SCHEME OF NATURE

Why Human Beings and Lower Animals Have Lobes Is Explained by Scientists.

What we commonly call the ear—that is, the external part—is little more than a "telephone receiver," as it were, to the inner or true ear, with which all hearing is done. Of this "receiver" the lobes form an essential and necessary part. In Nature's wonderful way they are made to serve a very important purpose in keeping the drum of the ear properly stretched. Many waves of sound would be lost to the real ear were it not for the lobe.

The lobes of hunted animals, such as the hare or stag, point backward, and of hunting animals, such as the dog, forward. Originally, it is believed, our human lobes were movable, but, as with the advance of civilization, man had to depend less and less upon his sense of hearing for protection against danger, the muscles connected with our lobes fell into disuse and resulted in the lobes becoming practically a fixed part of our hearing machine.

How Atmosphere Affects Stars.
Atmospheric changes have a very marked effect upon the twinkling of the stars. For example, it is found to increase as the temperature falls and as the barometer rises. An experience of nearly forty years, says a writer in *Conquest*, showed M. Montigny that with the quantity of moisture in the air the twinkling of the stars increased so markedly as to serve for a useful prognostic of rain. Cyclonic conditions generally are found to promote it, whilst it is extremely sensitive to magnetic disturbances. Humboldt on one occasion in the tropics found that the stars shone with a mild and planetary light; their scintillation was scarcely sensible at the horizon. This, it is apparent, was due to the great homogeneity of the atmosphere, whereby the extremely fine pencil of light from the stars was not interfered with by unequally dense strata.

Why Granny Was Pleased.
That even a public survey may possess a humorous aspect is evidenced by a story told by a westerner.

It appears that the boundary line between portions of Illinois and Indiana was long in dispute and that at length the government authorized a resurvey, which was duly executed. The old homestead of Granny Garver, one of the early settlers, was found to lie in Illinois, about eleven feet from the Indiana side. Granny expressed herself as much pleased, remarking that she had "heard tell Indiana was a powerful unhealthy state."

Why No Rule for Sleep.
A London doctor who has given the matter some extended investigation has come to the conclusion that there is no rule to be followed about hours of sleep, and there is no reason, he says, why a woman should have more sleep than a man.

One person gets as much benefit out of a habitual five hours' sound sleep as many another derives from eight or nine hours' lighter slumber, for quality of sleep is as important as quantity, a point that is often overlooked.

Why He Had to Move On
"Look here, you," said the town sergeant of Plunkville, "you don't work and had better move on to some other burg."

"There ain't no law you can arrest me under."

"Never mind that. This is cleanup time."—Louisville Courier-Journal.

BOTH WILD, FOR SHORT TIME

Imprisoned Cat and Kansas City Man Alike in Disposition Until Storm Calmed Down.

In Enid, Okla., according to a Kansas City man who goes there frequently, there is a collector of curiosities peculiar to the state. His line ranges from Indian moccasins to live coyotes. In fact he handles anything that might appeal to the romantic impulses and pursues of Easterners.

This dealer's store window recently attracted the interested attention of a portly salesman who was strolling about the town in company with the Kansas City man. With this obese traveling man to pause was to sit. The only convenient seat in this case was a box on the sidewalk in front of the store window. A piece of burlap had been spread over it.

The portly one just settled himself comfortably to enjoy the window display when his companion heard a snarling scream within the box and almost simultaneously the fat man was seen rising high in the air, propelled by his own sturdy legs. A howl from him mingled with the fallesto one which emanated from beneath the burlap.

Subsequent investigation developed that the box was really a crate containing a temperamental wildcat about to be shipped East. The animal had been seized with an impulse to test its lungs and claws at about the time the salesman placed the posterior part of his anatomy so convenient for claw testing.

DEMAND FOR CASCARA BARK

Industry Was Once a Baby, but It Has Developed Greatly in Washington State.

A half million dollars was the value of this season's cascara bark, harvested by Grays Harbor (Wash.) folk. It is the peeled leather-like skin of the barberry tree, stripped by settlers and city dwellers who spend six weeks each spring in the swampy forests near Hoquiam.

Six years ago this bark gathering industry was a babe, the few who attempted to sell the peeled bark getting from 8 to 4 cents per pound for it—not knowing just how to properly cure and pack it.

Then came the drug famine. The wholesale price which has gradually been rising is now 15 cents per pound and skillful strippers make \$10 to \$15 per day. With a knife an incision is made near the ground and a piece of bark once loosened there may be pulled from the tree upward for ten to fifteen feet. Taking but a part of the bark does not injure the tree.

Likes Color.

The other evening one of the charity organizations was giving a supper for a number of poor children of Indianapolis. One of the women had baked a particularly nice angel food cake for the occasion. One little boy attracted her interest and she decided that no matter what happened he should have a piece of her cake.

Accordingly she offered two or three women in passing their cakes by to get her own. She carried a big piece to the little fellow who gave it one look and said: "We got bread at home, lady. Please gimme some cake."

Crestfallen, she carried back her own cake and got him a piece of marble cake in which red and white mingled. And now she says, "No more angel food cake for me for charity parties."

Truth Mixed With Poetry.

A Muncie lawyer was making his first church speech. It was a welcome to the new minister, and in it he was telling of the beauties of his home town. He spoke of the streets, the residences and then he began on the trees. "I have one great tree in my yard," he said, "that means more to me than any other in town. Whenever I pass it I think of how often I have reached into its boughs to pluck the spring blossoms."

And then came an interruption. His little eight-year-old son who had been paying close attention to father's speech spoke up. "Don't forget the caterpillars, too, father," he said. "We have to burn 'em about that time, too."—Indianapolis News.

Shipping Sheet Rubber.

A new case for shipping sheet rubber has been introduced into Singapore shipping circles by an American firm. These reach local exporters in the form of sheets made of 100 per cent fiber, the riveting, packing and wiring being done by the shippers. The thinness of the sheets enables the cases built from them to hold from 12 to 25 per cent more weight of rubber than the old wooden boxes, and the new construction is practically unbreakable, very cleanly and waterproof.—Scientific American.

Speeches Quickly Reported.

When Governor Miller of New York makes a speech he takes along three of his own stenographers, a typewriter, and a mimeographing machine. The stenographers work in shifts, so that copies of his speech made in New York recently were available 9 minutes and 10 seconds after he had spoken the last word.—Exchange.

Change of Subject.

"Do you think Mars is inhabited?" "I'm looking the matter up," replied Senator Sorghum, "along with evolution. My wife says we men have made such a muddle as politicians that it's time we took up science or literature or something."

WHAT SENIORITY MEANS TO RAILROAD EMPLOYEES

The main point at issue in the controversy between the railroads and their striking shopmen seems to be whether these employees shall or shall not be allowed to return to work with seniority rights unimpaired. Many persons are somewhat hazy in their ideas of just what "seniority" means. The following clipping from "Railroad Data" explains the term clearly:

"Seniority in railroad employment is dependent upon length of service. In the case of railroad shopmen, there are three main points of importance in seniority rules:

"1. Choice of jobs within the territory affected (terminal or shops). The senior workmen, that is, those who have been in the employ of the railroad the longest time, are given first choice of the better positions.

"2. As to tenure of position when reductions in the working force are made, junior men are laid off first, and the senior men last.

"3. Preference in re-employment. After men have been laid off, they are taken back in the order of seniority, and no new labor is employed until former employees, who so wish, have been returned to their positions."

War Material for Roads.

Surplus war material, mostly of the variety desirable for highway construction, valued at \$139,773,986, has been delivered to states that requisitioned for it up to July, and more is still available. This material, which consisted of all sorts of supplies and equipment for which the War Department has no further use, is being distributed on the same basis as monetary federal aid through the bureau of public roads.

In value of material delivered, Texas and New York lead with nearly \$8,000,000 worth of material, and every state with the exception of five of the smaller ones received supplies valued at over \$1,000,000.

This material has been of great value in road construction, and there is hardly a county in the United States in which some of it has not been used.

Probably of greatest value has been the 29,325 motor vehicles distributed, consisting of 24,752 trucks and 4573 automobiles, and, in addition, a large number of tractors.

The system of distribution has been so arranged that the states requisition only material useful to them. In some cases they fall behind in allotments in order to wait for material particularly desired. Many of the states have shown great ingenuity in conditioning worn equipment, using war material to equip shops in which other war material is made suitable for use.

There is still a large quantity of material in this country for distribution. This will be further increased by material used by the army of occupation in Germany soon to be brought back.

"What's the matter?" "She's rejected me again, and she says this is final." "Did she say how final?" inquired his married friend.—Mass. Tech. Voo Doo.

She—Indeed, Mr. Maulstick, yours were the only pictures I looked at in the exhibition. Maulstick—Ah, you flatter—She—No; the others, you know, were so surrounded by the crowd.—Pearson's Weekly (London).
